In all the celebration of the Democratic victory in the Congressional elections, nobody noticed that President Bush won a big victory too. For the first time, there's a Congress likely to approve his aggressive agenda to increase immigration. But *capsweb.org* noticed. The members of *capsweb.org* disagree with President Bush on bringing in more foreign guest workers and their extended families. Amnesty for millions of illegal aliens. More and more immigration. *Capsweb.org* combines the voices of thousands of Californians into a massive chorus for real immigration reform. *Capsweb.org* is the united voice for Californians opposed to increasing immigration. *Capsweb.org* is the place to get your immigration action kit. Email alerts. Newsletters. Go to *capsweb.org now* and take action. Together, we can still stop this Congress from increasing immigration. Join *capsweb.org now*.
